

## **Good Places to Learn: Stage 4 Funding Allocation**

---

### **Introduction**

On February 17, 2005, the Minister of Education announced the Good Places to Learn (GPL) initiative with a goal of investing \$4 billion to enable boards to undertake capital renewal and new school construction projects. In March 2008, the Minister announced an additional \$750 million to support capital renewal and construction. The renewal component of this initiative has been divided into four stages, and will provide boards with approximately \$2.25 billion to support high and urgent renewal projects.

In 2005-2006, GPL Stage 1 provided school boards with funding to address an estimated \$1 billion in high and urgent renewal needs. This allowed boards to allocate funding to the repairs of roofs, heating and cooling systems, windows, fire alarms and extinguishers, and other urgently needed items.

In 2006-07, GPL Stage 2 provided school boards with an allocation to support a further \$500 million to address additional high and urgent renewal needs not funded in Stage 1, and to recognize lacking or inadequate specialized spaces, such as science labs, libraries, gymnasias or broad-based technology.

In 2007-08, GPL Stage 3 provided school boards with an allocation to support a further \$500 million to address high and urgent renewal needs, and lacking or inadequate specialized spaces not previously funded.

In 2008-09, GPL Stage 4 will provide school boards with an allocation to support a further \$250 million to continue to address high and urgent renewal needs, and lacking or inadequate specialized spaces not funded in previous stages.

### **Identification and Analysis of Facility Renewal Needs**

Allocation of funding under the GPL Stage 4 initiative is based on the detailed inspections of each school by building professionals completed in December 2003, by the facilities management consulting company, Capital Planning Solutions Inc. (CPSI), formerly Physical Planning Technologies Incorporated (PPTI).

Based on this inspection, the Ministry has developed an allocation formula to identify and designate funding to each board with respect to the renewal needs of their inventory of school facilities. The purpose of this document is to identify the calculations used to determine board allocations of the GPL Stage 4 funding.

The renewal information submitted by CPSI to the Ministry of Education on March 31, 2004 was adjusted by the Ministry to reflect current utilization of facilities and cost sharing between boards for shared facilities.

- *Shared Facilities*

In some instances, facilities are shared either between coterminous boards or between panels. The cost of renewal work presented by CPSI did not reflect the cost sharing arrangements that exist between boards sharing (or leasing) a facility. The Stage 4 allocation calculation uses the renewal needs attributed to

each eligible shared facility based on the board's share of the total On-the-Ground (OTG) capacity reported for the facility in Appendix C of the 2008-09 Estimates.

## Eligible Facilities for GPL Stage 4

To be eligible for GPL Stage 4 funding, facilities must satisfy the criteria listed below.

- Operating Facilities  
Schools offering a regular day school program in 2008-09 as indicated in SFIS are eligible. Specifically, of the schools inspected, the renewal needs of only those facilities operating an elementary or secondary day school program as reported in Appendix C of the 2008-09 Estimates are recognized in the funding calculations. The renewal needs for school facilities that are reporting no enrolment in 2008-09 are not eligible.
- Facilities Not Identified as Prohibitive to Repair (PTR)
  - **Phase 1 PTR (2003-04)**  
Renewal needs for any facilities that were declared Prohibitive to Repair as a result of Phase 1 of the School Renewal Initiative inspection process are not eligible for Stage 4 since funding was allocated toward the replacement of these facilities in 2003-04.
  - **Phase 2 PTR (2007-08)**  
As of December 2008, the Ministry has announced a funding or planning approval for 150 facilities worth approximately \$704 million (see O.Reg. 85/08 Table 23: Schools for which cost of repair is prohibitive 2). The renewal needs for facilities receiving a planning or a funding approval allocation under the PTR initiative in 2008-09 are not eligible for GPL Stage 4, as funding has been allocated towards the replacement or retrofit of these facilities.

The Ministry is in conversation with boards regarding PTR-Candidates which are actively being considered for PTR funding. The renewal needs for these facilities are not considered eligible for GPL Stage 4.

Further, in the case where PTR approvals were for partial school solutions, only the percentage of the facility not receiving PTR funding is eligible for GPL Stage 4. For example, if PTR funding was provided to replace 40% of the facility, only the remaining 60% would be eligible for GPL Stage 4.

## Calculation of Allocations

The school inspection process identified renewal work and priorities to be undertaken over a 5-year period from 2003 to 2007. The determination of priority was based on the condition of building components requiring repair/replacement as determined by the building inspectors and the component's criticality to the operation of the school building as determined by CPSI.

The GPL Stage 1 allocations were based on high and urgent priority needs identified in the first two years, 2003 and 2004, of the 5-year period. The Stage 2 and Stage 3 allocations were based on the 5-year (2003 to 2007) high and urgent needs, and estimated eligible program needs<sup>1</sup> less the previous GPL allocations.

Similarly, the Stage 4 allocation is based on the total 5-year high and urgent renewal needs and program needs for all eligible Stage 4 facilities. The sum of the renewal needs and program needs less the Stage 1, Stage 2 and Stage 3 allocations determine the total Stage 4 allocation.

## **Adjustments to Stage 4 Allocations**

Adjustments will be made to the total eligible GPL Stage 4 allocations as follows:

- ***Adjustment for PTR Facilities***

The GPL 3 funding document included adjustments to board allocations which reflected a number of schools which were still under active consideration for PTR funding approval at that time. Where a decision has been made to not provide PTR funding at this time, an adjustment has been made to provide GPL Stage 1 and/or Stage 2 and/or Stage 3 funding back to the board, as applicable.

- ***Adjustment for Technical Corrections***

A small number of other “technical” corrections have been made to reflect the following: re-instate GPL eligibility, on a pro-rated basis, for some schools that were partially funded through PTR; provide GPL funding that was missed for a number of eligible schools, including those acquired from other boards; update information related to shared facilities and correct the impact on the Stage 3 allocations, and take back any prior GPL funding for PTR funded schools that were not captured in the adjustments to the Stage 3 allocations.

*Appendix C* details the allocation adjustment summary, which includes the adjustments for Stage 1, Stage 2 and Stage 3 noted above.

## **Calculation of Stage 4 Allocations**

To determine the total eligible Stage 4 renewal needs, the total 5-year high and urgent renewal needs and program needs for all eligible Stage 4 facilities were aggregated to the board-level. The sum of the renewal needs and program needs less the Stage 1, Stage 2 and Stage 3 allocations, and the Allocation Adjustments (*Appendix C*), determined the total Stage 4 renewal base.

Each board’s Stage 4 allocation addresses approximately 12.9% of the Stage 4 renewal base. The final Stage 4 allocation includes the Allocation Adjustments.

*Appendix A* provides the GPL Stage 4 allocation on a board-by-board basis.

---

<sup>1</sup> Details regarding the estimated program needs calculation for GPL Stage 2, Stage 3 and Stage 4 can be found in Appendix E: Program Need Calculation of the GPL Stage 2 Funding Allocation document.

Appendix B provides the school-by-school renewal needs including program needs for each board used to calculate the information in Appendix A.

*Example*

A board has total renewal needs of \$50 million. Of these, \$35 million have been identified as the 5-year high and urgent renewal needs for 2003 to 2007 by CPSI. An additional \$5 million is estimated as costs for program needs.

Approximately \$10 million was funded through Stage 1, \$5.5 million was funded through Stage 2, and \$5.0 million was funded through Stage 3..

The GPL Stage 4 Renewal Base (net of adjustments) is the sum of the total 5-year High and Urgent Renewal Needs plus the program needs, less the Stage 1, Stage 2 and Stage 3 allocations, and the Allocation Adjustments.

The calculation of the board's Stage 4 allocation is 10% of the total Stage 4 Renewal Base. The sum of the GPL Stage 4 Base Allocation and the Allocation Adjustments will determine the FINAL Stage 4 Allocation, as shown in the example below:

(A)	(B)	(C)	(D)	(E)	(F)	(G) = A+B-C-D-E-F	(H) = G x 10%	(I) = H+F
Total 5-year High & Urgent Renewal Needs (2003 – 2007)	Total Estimated Cost for Program Needs	Actual Stage 1 Allocation	Actual Stage 2 Allocation	Actual Stage 3 Allocation	Allocation Adjustment (See Appendix C)	Total Stage 4 Renewal Base net of Adjustments	GPL Stage 4 Base Allocation (10 % of Total Stage 4 Renewal Base net of Adjustments)	Final GPL Stage 4 Allocation (including Allocation Adjustment)
\$35,000,000	\$5,000,000	\$10,000,000	\$5,500,000	\$5,000,000	-\$300,000	\$19,800,000	\$1,980,000	\$1,680,000

**Eligible GPL Stage 4 Projects**

School boards must apply GPL Stage 4 funding to facilities which are expected to be open and operating for the next ten years. Further, this allocation must be applied to those projects which are considered to be capital in nature and meets the criteria in the document *School Board & School Authority Tangible Capital Assets – Provincial Accounting Policies & Implementation Guide* available at the Ministry's TPFRR site at: [http://tpfr.edu.gov.on.ca/Capital%20Asset%20Valuation/TCA%20GUIDE%20-%20October%202008%20Release%20No%203%20\(ENG\).pdf](http://tpfr.edu.gov.on.ca/Capital%20Asset%20Valuation/TCA%20GUIDE%20-%20October%202008%20Release%20No%203%20(ENG).pdf)

In addition, boards may use any of their unspent GPL Stage 1, Stage 2 and Stage 3 allocations on the range of work identified as being eligible under GPL Stage 4.

**Update Renewal Need Priority in ReCAPP**

Similar to the flexibility provided to boards in Stage 2, as detailed in memoranda 2007:SB 18 *Good Places to Learn Stage 2 – Priority Escalation Flexibility*, Boards will continue to have flexibility to identify changes in renewal need priority. This will enable boards to use Stage 4 funding for renewal needs that have become high and urgent since the inspections were completed. Any change requests in the renewal need priority are intended to provide boards with greater flexibility to address the changes in renewal needs since the inspection. These requests will **not** be used to re-calculate the Stage 4 allocation.

Only renewal needs identified by CPSI, during the initial inspection are eligible to be considered to have their priority updated. Boards are encouraged to limit the events to be escalated within the 5-year planning window (2003 to 2007); however, the Ministry will consider events up to ten years outside the 5-year planning window (up to 2017) provided they are critical in nature (windows, roofs, boilers, electrical, etc.). In order to escalate a low or a medium priority to a high or urgent level, boards are required to submit an excel file of the priorities to be escalated and the rationale for escalation. Details were provided in 2007:SB 18 *Good Places to Learn Stage 2 – Priority Escalation Flexibility*. (See also, Appendix E of the GPL Stage 2 Funding Allocation document.)

### **Stage 4 Financing**

As in previous years, the Ministry will fund the short-term interest costs of Stage 4 renewal work in 2008-09. The interest cost recognized for funding will continue to be the three-month Bankers' Acceptance rate plus 20 basis points. For boards that borrow against internal reserves to support GPL Stage 4 projects, funding in 2008-09 will be recognized at the three-month Bankers' Acceptance rate on September 2, 2008.

The Ministry will begin funding short-term financing costs for GPL Stage 4 projects as of September 1, 2008.

### **Renewal Databases**

The *Good Places to Learn* initiative is an effort to address current renewal needs, as well as support good management practices and decision-making regarding facilities. Accordingly, part of the initiative was the installation of facilities management software<sup>2</sup> and the creation of databases for each board.

District school boards are receiving additional funding through the Grant for School Operations for the ongoing licensing and hosting fees associated with the ReCAPP software package. Boards receive the lesser of the amount specified in Table 12 of the 2008-09 Grant for Student Needs regulation, *Amount for Renewal Software Licensing Fees*, and the amount actually expended by the board for the licensing and hosting fees as reported in the 2008-09 Financial Statements.

Boards have had access to their ReCAPP databases since 2005. As part of the Ministry's accountability framework and the ongoing management of the Good Places to Learn Stage 1, Stage 2, Stage 3 and Stage 4 initiatives, boards are required to update information in their database to reflect renewal projects completed and/or underway.

---

<sup>2</sup> The facilities management software, ReCAPP is a tool designed to help boards identify renewal needs for the capital planning cycle. It will also allow consistent reporting across the province with respect to school condition. As indicated in Memorandum 2005:B4, boards will have access to their individual ReCAPP

databases upon signing their licensing agreements with CPSI. This access will allow boards to update their school building condition assessment information developed from the inspections of all schools and will also assist boards in selecting projects and developing effective school renewal programs. In conjunction with the development of long-term capital plans, school boards are required to update their databases to reflect current renewal projects as well as aid in the planning process.

## Appendix A: Summary of All School Board Annual Allocation for GPL Stage 4

A	B	C	D	E	F	G	H=(D+E)-F-G	I=H*12.9%	J=I+G
