MEMORANDUM TO: Directors of Education
Treasury of School Authorities

FROM: Joshua Paul
Assistant Deputy Minister
Capital and Business Support Division

Re: **Facility Operating and Renewal Funding for the 2019-20
School Year**

As a follow up to memorandum 2019:B14, this memo provides details related to facility operating and renewal funding for the 2019-20 school year.

Key highlights include:

- Maintaining renewal funding at \$1.4 billion for the 2019-20 school year; and
- Updates to the School Operations Allocation.

1. Funding for School Renewal

For the 2019-20 school year, the ministry is investing \$1.4 billion in school renewal so that boards can continue to provide healthy and safe learning environments, improve energy efficiency, and enhance accessibility.

These funds have been invested under two programs:

- School Condition Improvement at \$1 billion; and
- School Renewal Allocation projected to be at \$363 million.

School Condition Improvement (SCI)

SCI is a capital renewal program that allows boards to revitalize and renew aged building components that have exceeded or will exceed their useful life cycle. Items eligible for SCI funding will have been identified through the ministry's School Facility Condition Assessment Program.

For the 2019–20 school year, the ministry will continue to allocate \$1 billion to school boards through this program. As in prior years, 2019–20 SCI funding has been allocated in proportion to a board's total assessed five-year renewal needs (relative to the provincial total) and reflects assessment results from 2017. Only school facilities (board owned or capital lease) that were open and operating in the 2018-19 school year are considered for funding.

The ministry would like to remind school boards of the appropriate use of SCI funds. School boards are required to direct 70 per cent of their SCI funds to address major building components (e.g., foundations, roofs, windows) and systems (e.g., plumbing and heating, ventilation and air conditioning). The remaining 30 per cent of SCI funding can continue to address the above listed building components or, alternatively, building interiors and surrounding site components (e.g., utilities, parking and pavements).

Unspent funds in any given school year will be carried forward to the next school year and continue to follow the "70/30" rule. School boards are also reminded that all SCI-funded expenditures must be depreciable in nature and must be reported in VFA.facility. Payments will be made twice a year based on reported expenditures.

Please see Appendix A for individual school board SCI allocations.

School Renewal Allocation (SRA)

The SRA is a multi-faceted program that allows boards to revitalize and renew aged building systems and components. This includes roof replacement and replacing of aged HVAC systems. The program also allows boards to undertake capital improvements (e.g., install new building automation systems and air-conditioning systems, address program-related needs and invest in accessibility-related enhancements such as ramps, elevators, electronic door opening systems).

In addition, SRA also allows boards to address maintenance requirements such as painting, roof patching and pavement/parking repairs.

While school boards are provided the above flexibility under SRA, the ministry encourages school boards to prioritize SRA expenditures to address facility condition, health and safety, and general code requirements (including accessibility). For the 2019-20 school year, as in the previous school year, the ministry is allocating an additional \$40 million to this funding stream with annual funding projected to be \$363 million. This additional investment has been applied to the

renewal cost benchmark and can only be applied to expenditures that are capital in nature. For the 2019-20 school year, the SRA benchmarks are:

- For schools < 20 years of age: \$9.10 per m².
- For schools ≥ 20 years of age: \$13.64 per m².

Please see Appendix A for individual school board SRA allocations.

Renewal Accountability

The ministry expects that school boards will spend their renewal funds on schools that need to remain open and operating. For schools that are scheduled to be closed or are planned to be part of an upcoming pupil accommodation review, renewal funds should only be used to address renewal needs that could compromise the continuing operation of these schools in the short term. Renewal funds cannot be spent on administrative or operations buildings, on a community hub or to increase the gross floor area of a building. For school buildings acquired through lease, additions, alterations or improvements require ministry approval.

Please see Appendix B for summary guidelines of eligible expenditures under the SCI and SRA programs.

Note: The use of renewal funds is subject to audit. All expenditures must be reported in VFA.facility. The ministry may choose to follow up on reported expenditures. Failure to provide details when requested will result in either claw back or the ministry withholding funds.

2. School Operations Allocation

The school operations allocation allows boards to address the cost of operating school facilities (e.g., heating, lighting, maintaining, cleaning). For the 2019-20 school year, funding under this allocation is projected to be about \$2.1 billion.

Updates for the 2019-20 school year include:

- A two per cent increase to the non-staff portion of the School Operations Allocation benchmark, to help boards manage increases in commodity prices (electricity, natural gas, facility insurance, and other costs).
- Revisions to the board-specific elementary and secondary Supplementary Area Factors (SAFs) to use the most current facility data (reflecting data in the School Facility Inventory System (SFIS) as of March 2019) and align with proposed changes to secondary class size. Changes would be phased in over five years, 20 per cent per year, starting in the 2019-20 school year, and would apply to the elementary and secondary panels of the base school operations amounts only.

See Appendix C for SAFs based on the proposed changes to secondary class size.

3. Capital Planning Capacity (CPC)

The CPC program is intended to:

- Help boards develop capital plans to effectively manage their schools;
- Identify and develop potential facility partnership opportunities in underutilized schools that have been deemed by the board as being viable to support such arrangements; and
- Provide support to hire third-party mediation services to facilitate municipal/board planning discussions and to support cooperative planning.

For the 2019-20 school year, school board funding levels under the CPC program will be maintained from the previous year. Please see Appendix D to review your funding under this program.

4. Land Priorities Funding

For the 2019-20 school year, the ministry will continue its Land Priorities funding program for school boards that require land purchases to support both approved and board-identified potential future capital projects.

All school boards should continue to identify priority sites for acquisition. All school boards may request Land Priorities funding from the ministry through your capital analyst at any time during the year, prior to proceeding with acquisition. EDC-eligible boards are requested to simply notify their capital analyst prior to acquiring land.

The ministry is also requesting school boards engage with municipal governments before purchasing land and before finalizing any plans about future school investments.

School boards are reminded that, as part of ***More Homes, More Choice: Ontario's Housing Supply Action Plan***, proposed changes to the *Education Act* will require that school boards provide the ministry with advance notification of all site acquisitions and that the Minister will have the authority to deny the acquisition. This requirement will apply to all site acquisitions, whether funded through Land Priorities, Education Development Charge revenues, or otherwise.

5. Temporary Accommodation Allocation

For 2019–20, the ministry will continue to fund \$40 million for Temporary Accommodation in proportion to boards' share of temporary accommodation activity. This funding may be used for portable moves, leases and purchases, as well as for lease costs for permanent instructional space. This funding will be flowed as expenses are reported through the Education Financial Information System (EFIS).

To ensure fair and accurate temporary accommodation funding in future years, it is recommended that boards reflect any changes to their portable inventory in the School Facilities Inventory System before October 31 of each year.

As introduced in 2016-17, school boards are expected to place unspent Temporary Accommodation allocations from previous years in deferred revenue for spending on temporary accommodation.

Key Contacts

Note that the Capital Policy Branch and Capital Programs Branch are now located at 315 Front Street West. Revised staff directory with phone numbers can be found online on [InfoGo](#).

Thank you for your ongoing cooperation. If you have any questions or require additional information, please contact:

Appendix B: Eligibility Criteria under SCI & SRA

Eligible Expenditures	SCI Restricted (70%)	SCI Unrestricted (30%)	SRA
Capital – Renew / Replace Components			
Substructure (e.g., foundations, basement walls)	Yes	Yes	Yes
Shell / Superstructure (e.g., roofs, exterior walls and windows)	Yes	Yes	Yes
Interiors (e.g., stairs, floor finishes, ceilings)	No	Yes	Yes
Services (e.g., plumbing, HVAC, fire protection and electrical)	Yes	Yes	Yes
Equipment & Furnishings (e.g., <u>fixed</u> items only)	No	Yes	Yes
Special Construction & Demolition (i.e., hazardous waste removal)	No	Yes	Yes
Building Sitework (e.g., parking lots, site lighting, pavements, site utilities)	No	Yes	Yes
Capital – Other			
Portables repair and retrofits	No	No	Yes (temporary accommodation funds should be used first)
Additional portable purchase (i.e., adding to board inventory)	No	No	No
Program or accommodation related changes and retrofits (e.g., science labs converted into standard classroom)	No	No	Yes
New building enhancements: Non-renewal projects (e.g., accessibility, air conditioning, building automation systems, etc.)	No	No	Yes

Eligible Expenditures	SCI Restricted (70%)	SCI Unrestricted (30%)	SRA
Administrative facilities	No	No	No
Construction (e.g., changes to gross floor area or the replacement of existing building structures)	No	No	No
Salaries and wages for school board staff	No	No	No
Service debt (SRA only for previously encumbered debt. No allowance for new debt)	No	No	No
Moveable furniture and equipment (e.g. vehicles, furniture, equipment, computer hardware and computer software)	No	No	No
Community partners	No (should operate on cost-recovery basis)		
Operating			
Maintenance (e.g., costs incurred to service or maintain the tangible capital asset until the end of its estimated useful life)	No	No	Yes (with board-specific caps)

Appendix C: Supplementary Area Factors (SAFs)

Revisions to the board-specific elementary and secondary SAFs (to refresh the underlying facility data and align with proposed changes to secondary class size) would be phased in over five years, 20 per cent, per year, starting in the 2019-20 school year, and would apply to the elementary and secondary panels of the base school operations amounts only.
