**Subject** **2022-23 Student Transportation Grant- Cost Update**

---

As a follow up to memorandum [2022: B03, 2022-23 Grants for Student Needs Funding \(GSN\)](#), I am writing to provide you with details on the funding distribution for the 2.0 percent cost update included in 2022-23 Student Transportation Grant.

The cost update adjustment is estimated to be \$18.5 million. All of these funds are to be used by school boards and consortia to directly fund student transportation services.

Each board will receive an increase of 2.0 percent on its Student Transportation Base Grant excluding 12% which is assumed to be related to fuel costs. As a reminder, Base Allocation for Student Transportation is the 2021-22 Transportation Allocation less the Amounts for Fuel Escalation/De-escalation, School Bus Rider Safety Training, Provincial or Demonstration Schools.

School boards and consortia are expected to flow all these funds in a timely manner to meet their contractual obligations with bus operators.

Appendix A included in this memo lists the cost update allocation for all boards.

The allocation approach set out in this memo can only take effect if certain regulations are made by the Minister of Education or Lieutenant Governor in Council under the *Education Act* or other legislation as required. Such regulations have not yet been made. Therefore, the content of this memo should be considered subject to such regulations, if and when made.

In addition, we are also committed to providing additional funding for student transportation through the Fuel Escalator / De-Escalator component of the Student Transportation Grant contingent on market price of fuel during the 2022-23 school year. The ministry will continue to track the actual monthly market prices and reflect the result of the Fuel Escalator / De-Escalator by the end of the school-year. Additional details on this methodology can be found in the 2022-23 GSN Technical Paper.
