

Authorization Between School Board and School Boards' Co-operative Inc.

School Boards' Co-operative Inc. (SBCI) has entered into an agreement with the Ontario Ministry of Education (ministry) to provide the ministry with ongoing sick leave data, with the authorization of participating school boards. The purpose of this project is to provide the ministry and school boards with a better understanding into sick leave trends in the sector.

The aggregate data to be provided to the ministry will be compiled from both existing sick leave data that SBCI has from school boards that participated in previous absence studies as well as additional data required for this project.

SBCI is requesting your authorization to release existing and future sick leave data for the 2021-22 to 2022-23 school years that are in our possession and additional data sets that will be collected within these school years, to the ministry. The data to be released to the ministry will be filtered by employee groups and, for privacy reasons, will not reveal any data on individuals.

Please complete the information below and return this form to SBCI via email at EDUdatapoint@sbc.org or by fax at 905-669-9810.

I hereby authorize SBCI to provide this school board's sick leave data and analysis to the ministry

School Board Name: _____

Name: _____

Title: _____

Signature: _____

Date: _____
