

**Authorization Between School Board and School Boards' Co-operative Inc.**

School Boards' Co-operative Inc. (SBCI) has entered into an agreement with the Ontario Ministry of Education (ministry) to provide the ministry with ongoing sick leave data, with the authorization of participating school boards.

The aggregate data to be provided to the ministry will be compiled from both existing sick leave data that SBCI has from school boards as well as additional data required for this project.

SBCI is requesting your authorization to release existing and future sick leave data for the 2023-24 to 2024-25 school years that are in our possession and additional data sets that will be collected within these school years, to the ministry. The data to be released to the ministry will be filtered by unions and employee groups and, for privacy reasons, will not reveal any data on individuals.

Please complete the information below and return this form to SBCI via email at [EDUdatapoint@sbc.org](mailto:EDUdatapoint@sbc.org).

I hereby authorize SBCI to provide this school board's aggregate sick leave data and analysis to the ministry.
